Lighting & Decor

Lighting is often underestimated in its impact on an event’s atmosphere, making it one of the most overlooked and yet crucial elements of event decor. The right lighting can truly set the tone for an event, creating a unique ambiance that cannot be replicated by any other means. Whether it’s soft, warm lighting for a romantic wedding, vibrant and colorful lighting for a high-energy party, or dramatic spotlighting for a corporate event, lighting has the power to transform a space and evoke emotions in guests that are unparalleled.

“Up” lighting or ‘can’ lighting creates color schemes and mood lighting in a tent or venue, creating a unique atmosphere for any occasion.

Bistro or string lighting can be setup up with any tent or as a standalone feature being sure to set the right mood providing a warm inviting ambiance.

Twinkle or Fairy Lighting transforms a tent into a captivating environment, creating a magical, starry ambiance. These lights, typically strung across the ceiling, replicate a canopy of stars, infusing events with a romantic and whimsical charm.

Unlike traditional tent liners that cover the entire ceiling, our tent draping brings a touch of elegance and sophistication through the carefully crafted swags.

Leg drapes are a simple upgrade that makes a big impact on the overall look of your tent.

A tent liner is a luxurious and beautiful fabric that is used for events such as weddings, parties, and other special occasions.

Chandeliers are available to add that special elegance to your event.
